**VASEL ELECTRIC ALVAND.CO**

## About us

Vasel Electric Alvand Company was established in 1993 with the aim of meeting the needs of the domestic industry and launched its products under the brand name "PARSA". This company initially started its activity with the production of industrial plugs and sockets, and over time, while becoming the largest domestic manufacturer of industrial plugs and sockets (16-125 amps) and the market leader in this field, it expanded its product portfolio with the production of electrical equipment enclosures, boxes and cabinets. Currently, more than 150 different types of products are produced in this company and are supplied to domestic and foreign markets. In all these years consumer rights, high quality and fair price are major goals of Vasel electric alvand.

## Degrees of protection according to IEC 60529

1st numeric character is protection against foreign solid objects and 2nd one is protection against ingress of water

0		Non-protected	1st digit
1		Protected against solid foreign objects of 50 mm Ø and greater	
2		Protected against solid foreign objects of 12.5 mm Ø and greater	
3		Protected against solid foreign objects of 2.5 mm Ø and greater	
4		Protected against solid foreign objects of 1 mm Ø and greater	
5		Dust-protected	
6		Dust-tight	

Example:

**IP66**

Ingress Protection

0		Non-protected	2nd digit
1		Protected against vertically falling water drops	
2		Protection against vertically dripping water when enclosure is tilted up to 15° off vertical	
3		Protection against direct moisture spray at angles up to 60° off vertical	
4		Protected against splashing water	
5		Protected against water jets	
6		Protected against powerful water jets	
7		Protected against the effects of temporary immersion in water	
8		Protected against the effects of continuous immersion in water	

## Earth contact positions and color codes according to IEC 60309-2

Earth contact position
